# Main Base vs. Wallops Island

## Wallops Flight Facility

- ◆ Wallops Flight Facility has two parts: “Main Base” and “Wallops Island”
- ◆ The Main Base is the center for most of the facility’s operations
  - Located on Rt. 175, Chincoteague Rd.
  - All experimenters will work here throughout their mission lifecycle
  - Security badges can be picked up at the Security Office upon arrival
- ◆ Access to Wallops Island requires a special badge because it is the launch site for the facility’s sounding rockets and orbital launch vehicles
  - There should be no reason for island access to be needed for manned aircraft work, however for small UAS operations access can be given
